

Black Hills Surgery Center brings you the future...

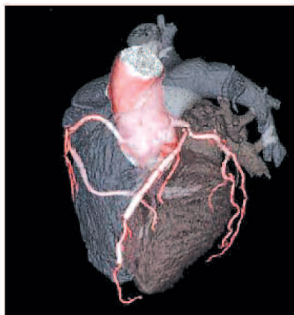

in a matter of seconds.

Introducing the most advanced CT system in the world. Our 64-Slice LightSpeed® VCT is capable of capturing entire organs in seconds, the entire heart and coronary structures in five seconds, and a whole body vascular scan in ten. The 64-Slice LightSpeed® VCT represents the next evolution in CT. It doesn't just do it faster – it does it better and with more comfort.

At Black Hills Surgery Center, we think you deserve it... excellent care, quality and comfort...we value all of these and are pleased to be the first to offer this breakthrough technology to the Rapid City area.
