

When it comes to your health

WE THINK SOONER IS BETTER.

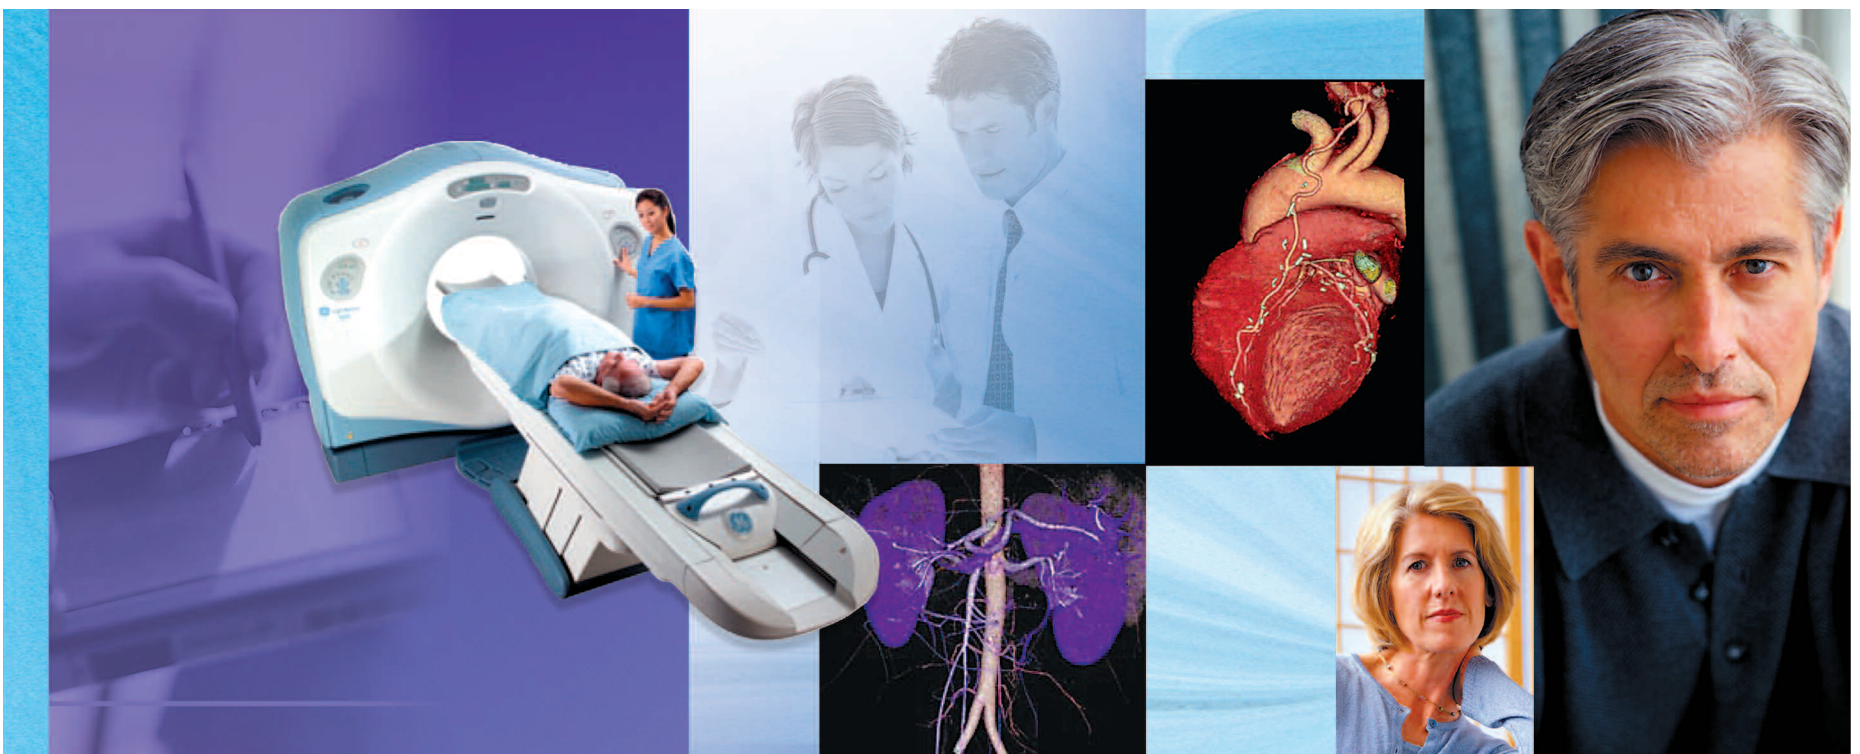

The Black Hills Surgery Center is pleased to be the first to offer the most advanced, thorough and convenient medical examination available.

Every year, thousands of people in our area suffer from a multitude of serious health conditions simply because until now there has been no way to detect the early warning signs with a high level of accuracy.

By the time serious symptoms show up using yesterday's diagnostic techniques, it is often too late.

Our new **Executive Health Examination program** is designed for any individual, not just business executives, and is intended to provide patients with peace of mind relative to the general condition of their health. It is also designed to detect hidden diseases which may shorten their life or create the need for expensive and painful medical treatment, if not detected early.

Our **Executive Health Examination** evaluates all of your major body systems to assure that you can live life to the fullest.*

The Executive Health Examination allows patients to detect potential health problems and treat them long before they become critical. Our basic package includes :

- | | | |
|--|--|---|
| <ul style="list-style-type: none"> ■ Complete physical examination by a Board-certified Internal Medicine Physician ■ Comprehensive blood testing (eg. Metabolic, lipid, and/or thyroid) ■ PSA prostate screen for men and PAP smear for women ■ Medication evaluation ■ Resting EKG ■ State-of-the-art 64-Slice CT scan Calcium Score to detect predisposition to heart disease | <ul style="list-style-type: none"> ■ Body composition analysis ■ Nutrition analysis ■ First rate concierge service including : <ul style="list-style-type: none"> • Individual "no wait" service • Door-to-door transportation if requested • Meals and refreshments • Kind and attentive staff and physicians • TV, phone, wireless, and fax service while waiting | <ul style="list-style-type: none"> ■ Comprehensive post-examination review of all medical findings by Board-certified Internal Medicine Physician ■ Personalized and bound individual set of all medical tests and findings for your personal files and future care ■ Written recommendations from a Board-certified Internal Medicine Physician on necessary follow-up to address health issues ■ Interpretation of all imaging services by Board-certified, fellowship trained radiologists |
|--|--|---|

Take control of your health.

The best prescription for staying healthy begins by analyzing your current health status, risk factors, and potentially harmful habits. If after your **Executive Health Examination** it is determined that you need additional testing† or follow-up care, Black Hills Surgery Center can help.

The Executive Health Examination at Black Hills Surgery Center may be the most important exam of your life.

Don't wait for an unknown illness to impact your life. Call our **Executive Health Examination** Coordinator today to learn more about our program and set your individual appointment.
